

Web Site Planning Check List

What your web developer will need from you:

- Decide your goals for your new web site. What is its main focus? Ecommerce, Informative, Brand Building etc.
- Does your site require any special functionality?
- What pages will your new site have? Home? About us? Contact? Portfolio/Gallery? Blog? Shop? Services? Process? Other...
- Content for all pages you wish to include in your site. This includes pictures, graphics, links and text.
- Pictures and Graphics for site saved at a high resolution. If graphics are available as an Adobe Illustrator file, that is even better.
- Design Questionnaire
- Your contact information.

Hosting Information:

- Hosting Company
- Hosting Company Website
- Login and Password
- FTP login and password
- Domain Name: (Example: www.yoursite.com)

Don't worry if your not sure of something. Amling Studios will help walk you through it.
